The Wonder Plant

Blooms for three months when left on the bulb.

Keeps for six weeks as a cut-flower.

(*Ornithogalum Thyrsoides*)

(**South African Chinchinchee**). This wonder plant from Africa is distinguished for its longevity. The blooms when cut will keep from four to six weeks and if left to remain on the bulb will bloom through for three months. The buds are a straw color changing to pure white. For growing indoors, only, in temperature of 55 degrees. Makes an ideal vase decoration when combined with Statice.
